Shareholders

Our First Priority: Improving Health at Every Stage of Life

Innovation for all through:

- Pharmaceuticals
- Medical devices
- Consumer health products

Customers

Pharmaceuticals

Bringing new health and hope to people around the world

Breakthroughs transform how diseases are prevented, intercepted, treated and cured. We are one of the largest pharmaceutical and biotech businesses in the world, with a robust pipeline of new innovations and acquisitions.

IMMUNOLOGY | CARDIOVASCULAR & METABOLIC DISEASE | PULMONARY HYPERTENSION
INFECTIOUS DISEASES & VACCINES | NEUROSCIENCE | ONCOLOGY

Medical Devices

Advanced tools that address challenging, critical and debilitating health issues

We're the #1 global leader in surgery and orthopedics—and our robotics, AI and engineering programs are growing fast.

GENERAL SURGERY | ORTHOPAEDICS | CARDIOVASCULAR DISEASE | INFECTION PREVENTION
EAR, NOSE & THROAT | NEUROVASCULAR | BREAST AESTHETICS | VISION

Consumer Health

Innovative solutions for every stage of life

All that caring makes us one of the largest and fastest-growing consumer healthcare businesses in the world.

SELF CARE | SKIN HEALTH | PERSONAL HEALTH | ESSENTIAL HEALTH

Our Next Responsibility: Our Team

Live your best life while doing your best work

The world of work is changing,
and we're keeping up:

- Innovative benefits
- Steadfast resources
- Collaboration across companies or practice areas
- Flexible work arrangements
- Global network
- Impact

Our Third Responsibility: Our Communities

Fulfilling Our Credo responsibilities so people, planet and business can all live in good health today and tomorrow.

- People
- Places
- Practices

Shareholders

Our Final Responsibility: Shareholders

When we put the needs and well-being of the people we serve first, success will follow
