## INHERE RECOMMENDATIONS

# Further development of best practice and sustainability

- >> Development of more visible and better resourced initiatives & sustainability of successful projects within the EU policies framework.
- >> Reinforcement of synergies between the various successful initiatives to share ideas & encourage collaboration and common policies.
- >> Definition of national long-term strategies for the development of institutionalized and sustainable initiatives & more coordinated actions.
- >> Integration of support for refugees within the overall HEIs' strategies, as part of their contribution to society, under their 3rd mission.

# UNI(DI)VERSITY

—  
broadens the scope of inHERE in two ways:

It moves from a focus on sharing field practices towards promoting **institutional strategic planning**, as this proved to be the most successful and sustainable approach to addressing such challenges;

It expands the scope of intervention to address the overall HEIs' responsibility towards inclusion, in relation not only to **refugees** but to **migrants** as well
